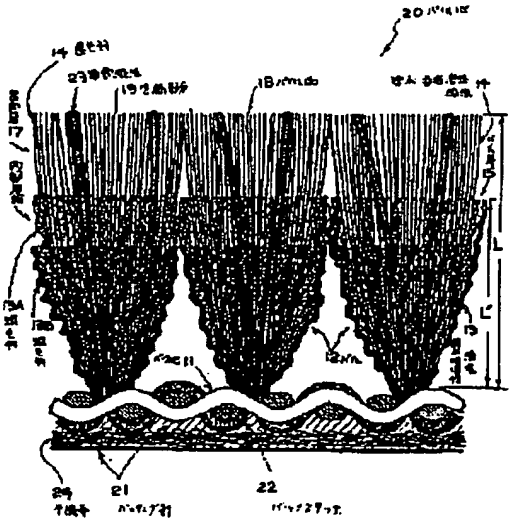
TITLE : PILE GROUND OF UPHOLSTERY AND THE LIKE FOR SEAT IN AUTOMOBILE



ABSTRACT : PURPOSE: To obtain the subject pile ground suitable for upholstery having hygroscopicity without giving sticky and steamy feeling by forming the pile ground protruding from base ground by stratifying to a fluff of a hydrophilic and hygroscopic fiber and a fluff of a hydrophobic and non-hygroscopic fiber in specific states.

CONSTITUTION: Pile 12 protruding from base ground 11 is constructed by a fluff 13 of a hydrophilic and hygroscopic fiber and a fluff 14 of a hydrophobic and non-hygroscopic fiber. Length L' of said fluff 13 is made shorter than the length L of said fluff 14 and the subject pile ground is composed of two layers stratified to upper and lower with an inner layer 16 containing the short fluff 13 and the long fluff 14 in mixing as a pile layer 15 and a surface layer 17 comprising top end parts 19 of the long fluff 14 forming a pile face 18 by protruding on the inner layer.
